

Your Partners in Community Development

Mission:

GeoAid International partners with local communities and natural resources companies to achieve sustainable development worldwide.

Background:

GeoAid was initially founded by geologist Bill Buckovic in connection with a mining project in Cameroun. We are an independent 501 (c)(3) organization.

What We Do:

GeoAid integrates social and humanitarian interests into natural resources development and implements corporate social responsibility by working with partners in the US and abroad. **GeoAid helps build sustainable, positive change.**

GeoAid's Commitment:

- *Cooperating with Government:* Our programs are developed in collaboration with national government development plans, regional charitable organizations and local human and social service providers
- *Community Partnering:* GeoAid International is committed to engage local leaders and access local resources
- *Leading with Leverage:* Distributing high value gift in kind medical supplies and equipment
- *Transparency and Accountability:* In program development, sources, and use of funds

GeoAid introduces positive growth in local livelihoods and life resources through integrated multi-sector programs:

Community Health:

- Supporting maternal health and child survival
- Assisting in disease prevention and vaccination campaigns
- Providing health education messages
- Coordinating periodic health team visits
- Expanding health resources through gift in kind donations

Agriculture:

- Promoting household food security
- Supporting nutrition improvement by increasing crop yields and varieties
- Training cash crop production farmers for local and regional markets
- Supporting anti-bush meat initiatives by promoting alternative protein sources

Education and Training:

- Facilitating curriculum enrichment in local schools
- Improving educational facilities
- Providing access to education supplies & equipment
- Training & developing community leaders
- Facilitating stakeholder conflict resolution and problem solving

Small & Medium Enterprise:

- Providing small loans to local entrepreneurs
- Assisting in the formation and growth of local associations and cooperatives
- Providing training in business and economic related activities
